

Mountain gorilla tracking

They are like us and yet so different...

Tracking gorillas is a unique experience! The mountain gorilla is the world's most endangered ape and only found in small parts of protected forests in southwestern Uganda, Rwanda and the DRC. There are only 700 individuals left.

Put on your walking shoes and have this intense and fantastic experience...

Uganda and Rwanda

The Pearl of Africa and the land of Thousand Hills!

In Uganda and Rwanda, the East African savanna meets the West African jungle. Where else in the world can you observe Lions and Elephants on the open plains in the morning and track Chimps in the rainforest the same afternoon? Then the next day navigate the natural channels with Hippos and Crocs before setting off into the misty mountains of the Mountain Gorilla!

Things to see and to do

- The mighty Nile with the spectacular Murchison Falls
- Some of world's best wild-water rafting in Jinja
- Game drives on the Savannas of Murchison Falls, Queen Elizabeth, Lake Mburo and Akagera National Park
- Boat-trips on the Nile and the Kazinga Channel with spectacular wildlife and photo opportunities
- Gorilla tracking in Bwindi and Volcanoes National Park
- Chimpanzee tracking in Kibale, Nyungwe Forest and the Kyambura Gorge
- Chimpanzee habituation experience
- Hiking to the snow-capped peaks of the Rwenzori Mountains
- Climbing the Virunga Volcanoes and Mt. Elgon
